DETAILED ACTION

Claims 17-20 are pending.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 17-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The term “converting” is vague and indefinite since it fails to provide the reaction condition(s) and/or reagent(s) to make the final product(i.e., alkenyl aryl). Converting can be interpreted as any type of reacting process, and it is not clear that which process can be used to make alkenyl aryl from alkylaryl hydroxide.

No claim is allowed.
